3 Assessment form PAPER.....5

GENERAL

The colored planes are an indication of the grade. The color yellow indicates that the student is performing at the level of a starting bachelor's degree in ICT.

The meaning/distribution of the colors is as follows:

<4	4 - 5,4	5,5 – 6,9	7 - 8,4	>=8,5
----	------------	--------------	------------	-------

In the squares you can mark where the student is located.

Before proceeding to a substantive assessment, the Applied AI paper is checked for a number of form aspects. See: *2 Form aspects* check. Before any further substantive assessment will take place, all parts of the form aspects check **must** be **present**. In the absence of any components, the Applied AI paper will be assessed with an not assessable (nnb).

In a formal assessment situation, the substantive assessment of the CEH paper will not take place until the form aspects check has been agreed. This assessment form (Assessment form CEH Paper) shall be used.

The assessment of at most 1 sub-digit of the paper may be insufficient. Are more parts insufficient then the figure of paper is assessed with an insufficient (0).

2 FORM ASPECTS CHECK

Remarks:

Strike out what doesn't apply.

All the items mentioned must be present otherwise the paper **will not be reviewed** and the paper will be assessed with an **unassessable (nbb)**.

Structure of the paper (presence of parts)		
Concise abstract	Missing	Present
Introduction	Missing	Present
Description of the method	Missing	Present
Description of results	Missing	Present
Conclusions and discussion	Missing	Present
Literature list	Missing	Present
Implementation		
Meets the volume requirements (8 – 10 pages) ³	Not met	Met
Correct and appropriate layout (titles, cups, paragraphs are clear and correct)	Not met	Met
Structure of the paper is clear	Not met	Met
Text is supported by figures & tables (Yes! deployed/referenced)	Not met	Met
Spelling and grammar are of sufficient quality	Not met	Met
APA is well applied	Not met	Met

Click or tap here to enter text.

³ The students write a paper in their project groups. The volume count must be 8-10 pages. This page requirement applies to the body, so without introduction, method, conclusion, discussion and source list.

3 ASSESSMENT FORM PAPER

Stylistic assessment (A)

A General writing skills	
Appropriate Title	Unsatisfactory     ✓ Satisfactory
Language adapted to the target group (clear, business and efficient writing style)	Unsatisfactory     ✓ Satisfactory
Literature list (APA)	Unsatisfactory     ✓ Satisfactory
Design (use of white lines, fonts, etc.)	Unsatisfactory     ✓ Satisfactory
Spelling and grammar	Unsatisfactory     ✓ Satisfactory
Clear and correct structure (paragraphs)	Unsatisfactory     ✓ Satisfactory
Consistency between the different components	Unsatisfactory     ✓ Satisfactory

Content assessment (B1 + B2 + B3 + B4 + B5)

B1 Summary	
Is short and concise	Unsatisfactory     ✓ Satisfactory
Introduction / method	Unsatisfactory     ✓ Satisfactory
Results	Unsatisfactory    ✓  Satisfactory
Conclusion	Unsatisfactory     ✓ Satisfactory
B2 Introduction	
Reason for the investigation	Unsatisfactory     ✓ Satisfactory
Description and explanation of the subject	Unsatisfactory     ✓ Satisfactory
(Social) importance of research /subject	Unsatisfactory     ✓ Satisfactory
Main/ subquestions and objectives	Unsatisfactory     ✓ Satisfactory
Scope	Unsatisfactory     ✓ Satisfactory
Structure overview / reading guidance	Unsatisfactory     ✓ Satisfactory
Logical connection with each other	Unsatisfactory     ✓ Satisfactory
B3 Method	
Description of population and sample	Unsatisfactory     ✓ Satisfactory
Data collection description	Unsatisfactory     ✓ Satisfactory
Instruments description	Unsatisfactory     ✓ Satisfactory
Analysis	Unsatisfactory     ✓ Satisfactory
Argumentation of methodological choices	Unsatisfactory     ✓ Satisfactory
B4 Results	
Statements and allegations are clearly substantiated and argued where necessary and are consistent	Unsatisfactory     ✓ Satisfactory
The author's own input is evident. Existing literature is linked to one's own research	Unsatisfactory     ✓ Satisfactory
Informative	Unsatisfactory     ✓ Satisfactory
Contains sufficient depth	Unsatisfactory     ✓ Satisfactory
Quality and presence of sources (literature choice) (Remember: amount, completeness, timeliness, quality and relevance)	Unsatisfactory     ✓ Satisfactory
B5 Conclusions and discussions	
Provides an answer to the research question and sub-questions	Unsatisfactory     ✓ Satisfactory
Can be read as a loose part	Unsatisfactory     ✓ Satisfactory
Has a correct consistency	Unsatisfactory     ✓ Satisfactory
Contains identifiable recommendations	Unsatisfactory     ✓ Satisfactory
Discussion focuses on the evaluation of methodological results:	
Reliability	Unsatisfactory     ✓ Satisfactory
Validity	Unsatisfactory     ✓ Satisfactory
Usability	Unsatisfactory     ✓ Satisfactory

Motivation for the grading:

Algemene opmerkingen

De paper is goed opgezet. De algehele structuur is zeer netjes, en is inhoudelijk goed geformuleerd.

Sterke punten

1. **Duidelijke scope en doel.** De scope van het onderzoek sluit goed aan op het doel van het onderzoek. De subvragen onderbouwen de hoofdvraag goed, en de hoofdvraag is een goede vraag bij voor AI deepfake detectie.
2. **Goede grafieken en tabellen.** De tabellen en grafieken ondersteunen de bijbehorende text, en het subscript van de figuren komt ook overheen met wat er in het bijbehorende figuur wordt vermeld.
3. **Duidelijke uitleg wat AUC niet is.** Het verslag legt duidelijk toe wat het AUC getal vooral niet betekend voor het verslag.

Verbeterpunten

1. **AUC en ROC-curve.** Deze twee onderdelen worden veel benoemd in het onderzoek, maar het is niet terug te vinden wat deze data concreet betekend. Hoewel AUC een functie is van de ROC-curve, staat de ROC-curve niet vermeld in de benoemde bron *Chandra et al. (2026)*. Wellicht heeft het meerwaarde om het mechaniek van de ROC-curve toe te lichten hoe deze wordt verworven voor dit onderzoek, of om de ROC-curve weg te laten in zijn geheel.
2. **Tekstgrote in tabellen.** De tekstgrote in de tabellen is inconsistent. Sommige rijen lijken in een groter lettertype te zijn, soms lijkt het willekeurig welke tekst in een ander lettertype te zijn.

Conclusie

Verslag ziet er goed uit en voldoet netjes aan de vereisten van een goed verslag.
